

## **Remarks**

### ***Reissue Applications***

Applicants are not aware of any prior or concurrent proceedings in which Patent No. 6,010,174 is or was involved, other than this Reissue Application No. 10/037,280. These proceedings include interferences, reissues, reexaminations, and litigation. Applicants acknowledge and appreciate the Examiner's reminders of this continuing obligation in that set forth in 37 C.F.R. § 1.56 to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

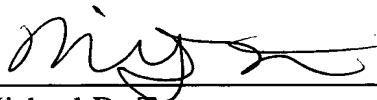

The Examiner has objected to the oath/declaration for failing to contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intent on the part of the Applicants. Accordingly, enclosed herewith is a copy of a concurrently filed supplemental declaration signed by Murdock and Curtindale, two of the named inventors, accompanied with a Petition Under 37 C.F.R. § 1.47(a) on behalf of Ryan E. Dillingham, an inventor who cannot be reached.

Claims 1-11, 13-15 and 29 are rejected as being based upon a defective reissue declaration. Accordingly, a supplemental declaration for the inventors and a petition for a missing inventor have been filed.

***Allowable Subject Matter***

Applicant appreciates the Examiner's indication that claims 1-11, 13-15 and 29 would be allowable upon correction of the declaration. Accordingly, a supplemental declaration and petition for a missing inventor have been filed.

Respectfully submitted,  
**Jay A. Murdock et al.**
